Great performances without transcoder

H.264

Mkv juice is a high performances multimedial player. Few players are able to play various multimedial files like h.264, x.264, mkv, divx, vob, iso... all in high resolution up to 1080p. You can transfer all your. audio and video files in 2.5 sata hard disc (not included in the package). You can also connect mkv juice to your full hd television.

Small and light

Mkv juice is really useful to be used in your. car: thanks to its dimensions you can connect to your. tv car to entertain your. children or you can connect to stereo and listen to music during your trips.

External hard disc

You can connect mkv juice to your. pc thanks to 2.0 usb. You can use mkv juice as hard disc connecting it to 2.5 sata hard disc (not included in the package) to store your files.

User friendly graphic interface

Mkv juice is extremely simply to use. thanks to its simply and intuitive graphic interface and its remote controller you can manage all functions from your sofa!
